EDUCATION

2022 – 2026
CITY OF
MALABON
UNIVERSITY
**Bachelor of Science in
Information Technology**
Pampano Street, Maya-maya Corner
Street, Brgy. Longos Malabon City

CERTIFICATION

2026
VIVA EXCEL
INSTITUTE
(TESDA)

- Computer System Servicing NCII
- Cyber Threat Monitoring Level I

PROJECT

Predicting Dengue Hotspots in Malabon City through AI and Integrated Weather-Case Analysis Lead Programmer, Aug – Oct 2025	- Machine Learning Pipeline: Built a Django application utilizing a Random Forest model with Pandas and SQLite3 to predict and analyze dengue risk across 21 barangays in Malabon City. - API & Data Integration: Integrated Open-Meteo API to fetch historical and real-time weather metrics for multivariable environmental correlation. - Geospatial Dashboard: Designed an interactive Leaflet.js map interface featuring color-coded risk visualizers for localized epidemiological monitoring.
